STR 12.54 // STR 12.92:
→ Plastic cable drums for mounting to 1˝ tube for VariVent® systems, lifting window and similar items.
→ Drum in two sections for ease and speed of assembly.
→ With patented clamping fixtures, no further drilling required!
→ For cable diameters of up to 4 mm.
→ Version xx10 always with pre-mounted wire cable. Process for controlled winding of cable during assembly has been submitted for utility patent application.

STR 12.74 // tapered cable drum for VariVent® TFS:
→ For single-rolled TFS systems with a ventilation height of up to 3.5 m.
→ Only a small winding tube offset (± 5 – 10 cm).
→ Only a small base is needed, which delivers a bigger cross section for ventilation with eaves at the same height.
→ Flexible range of applications: Depending on which area of the tapered drum is used, the winding offset for different thicknesses of sheeting can be optimised.
→ Easy to install with tried and tested gripper clamps.

**STR 12.91 // Cable drum for EazyVent®:**
→ Smooth cable drum made of two plastic half-shells (ø 110 mm).
→ Included in scope of supply: Two screws and two lock nuts.
→ Only suitable for plastic cables.
→ Special groove present for safety winding.

Note:
→ Indication H without two safety windings.
→ Per drum max. 150 kg.
