**MX-CP 40 PART-EXTRACT**

The MX-CP 40 - partially extending rails offers a very high load capacity. Depending on the length, it is fastened by 2 or 3 M6 countersunk screws located in the middle of the U-profile. The inner rail is fastened by 4 or 6 M6 threaded holes.

**Extension length = installation length**

**Overall length = installation length + extension length**

\*Load per pair in extended position, even weight distribution and vertical installation.
